

Akvil Sakhare

USER EXPERIENCE DESIGNER

Experienced UX Designer with a decade of user-centric solution expertise. Collaborator bridging technology, business, and design. Freelance UX Designer (Jul 2018 - Dec 2021) drove growth through notable projects, detailed below.

EXPERIENCE

Senior UX Designer | Bentley Systems

September 2025 - Present

- Lead UX design for Bentley Infrastructure Cloud Mobile, simplifying complex workflows for field workers.
- Drive features from discovery to delivery, collaborating with product managers, engineers, and stakeholders.
- Conduct user research and translate insights into intuitive, scalable mobile experiences.

Senior UX Designer | Zedge

November 2023 - February 2025

- Led end-to-end features for a personalization app with 500M users, driving \$500K in revenue.
- Designed a marketplace for 60M+ users, introducing a new payment channel and scalable UX foundations.
- Improved iOS user retention by 42% through UX enhancements.
- Designed AI products, including Emojipedia's sticker generator, an image-generation app, and a print-on-demand platform.

Senior UX Designer | Malwarebytes

January 2022 - September 2023

- Led UX design for an Endpoint Detection & Response (EDR) platform, improving UX/UI across multiple releases in an agile environment.
- Partnered with cross-functional teams to grow the user base to 1.2M users.
- Conducted user research, design audits, heuristic evaluations, and competitor analysis to drive data-informed design decisions.

Senior UX Designer | Peepal Design

August 2021 - November 2021

- Led the redesign of a legacy CRM into a user-friendly platform, collaborating with stakeholders, engineers, and a small design team.
- Facilitated stakeholder workshops, developed personas, and conducted competitor analysis, heuristic evaluations, and user interviews.
- Designed new workflows and information architecture, increasing platform usage by 43%.

Senior UX/UI Designer | NTree

December 2019 - February 2020

- Created a home security mobile interface from concept to launch, driving substantial user growth and generating millions in revenue.
- Designed layouts, interactions, transitions, and made UX design decisions across various mobile screen sizes.

UX/UI Designer | Govt. of Rajasthan

September 2019 - November 2019

- Redesigned the Rajasthan Government's Procurement System portal to enhance security and transparency.
- Created information architecture, flow diagrams, wireframes, and high-fidelity mockups and prototypes.

Senior UX/UI Designer | Dhanwise

May 2019 - August 2019

- Designed responsive web interfaces for a platform connecting individuals with financial advisors to facilitate future planning.
- Collaborated closely with the founder to create and validate workflows and interfaces through multiple iterations.

Senior UX/UI Designer | Docsumo

September 2018 - April 2019

- Collaborated with founders on four diverse projects, designing interfaces for an enterprise document AI software application.
- Contributed significantly to the company's growth, helping it expand from a two-person startup to a 70-member team and secure \$3.5 million in seed funding.

Lead UX/UI Designer | Dozee

September 2017 - May 2018

- Oversaw UX and visual design of a health monitoring system used in 200+ hospitals, saving 70,000+ nursing hours for 30,000+ patients.
- Led product vision, collaborating on sleep studies, data visualisations, and product development.
- Conducted market research, user feedback sessions, designed packaging, and created diverse branding assets to enhance brand presence.
